## **AUBURN REGIONAL MEDICAL CENTER ACQUIRES AUBURN DIAGNOSTIC IMAGING SERVICES - MERRITT BUILDING**

**Auburn, WA (2007)** – Today, Auburn Regional Medical Center (ARMC) announced its acquisition of Auburn Diagnostic Imaging Services (ADIS) – Merritt Building.

Both facilities currently have a partnership with Valley Radiologists and this partnership will continue under the new agreement. ARMC has worked in tandem with Valley Radiologists for 37 years. ADIS – Merritt Building will retain the same technologists currently on staff and will continue to offer the same superior high quality imaging services and expert interpretation to its patients.

Auburn Diagnostic Imaging Services celebrates its third year in Auburn and will continue to provide convenient service benefits to patients including same-day availability, extended scheduling, no hospital registration and walk-in exams. The center offers MRI and CT exams Monday through Friday. Patients also enjoy free parking, a comfortable waiting room, and personalized care in a tranquil outpatient environment.

###

### **About Valley Radiologists, Inc.**

For more than 35 years, Valley Radiologists has provided patients with high quality imaging services in southern King County. The group formed in 1970 as a partnership between three radiologists. Today, Valley Radiologists services six imaging sites with more than 20 radiologists on staff. Valley Radiologists is committed to providing patients with state-of-the-art testing in a comfortable and caring atmosphere. For more information on Valley Radiologists, visit [www.vrads.com](http://www.vrads.com).

### **About Auburn Regional Medical Center**

Auburn Regional Medical Center is a progressive acute-care facility and medical center that has been serving South King and North Pierce counties since 1921. The medical staff, which represents nearly 30 specialties and subspecialties, is supported by advanced technology and a team of caring, highly respected professionals - all working together to lead the way to a healthier life for Auburn-area residents.
